

TRUE OAK 'MID' 10mm

Playford Uniting Church | Architect - Hodgkison | Builder - Partek Construction and Interiors | Roofer - Zinctech Cladding | COLORBOND® STEEL Surf Mist®

1. Hindmarsh Tiers Residence

Z600 Heritage Galvanised®

True Oak Superior Corrugated 'Mid' 10mm is an improved option for all different applications; wall cladding, verandahs, canopies, ceilings and fences. The patented True Oak technology is exclusive to Revolution Roofing and is a stylish solution for your next project.

As with all of the True Oak profiles the design of the True Oak 'Mid' 10mm was about taking a known profile and improving it through simple engineering. Raising the rib height to 10mm has kept the charm of a low profile but given the True Oak 'Mid' 10mm a strength that is unmatched in the market.

Problems that have confronted the traditional low profile cladding options can now be a thing of the past. Whether it be a horizontal wall cladding, a well trimmed soffit or a double sided fence the improved lapping abilities of the hi-tensile True Oak 'Mid' 10mm provides a perfect finish to any project that is strikingly different from a distance.
