

USER GUIDE

OVERVIEW OF USER GUIDE

The purpose of this User Guide is to give you an overview to using the Revolution Roofing RevBend program.

The RevBend program has been created so that you, our valued customer can create, process and place orders at a click of a button from your office, work site or home.

RevBend is a simple yet effective program to use, reducing the risk of error, with you the customer being in control of what gets entered and sent to the machines directly.

Throughout this guide we will show you from start to finish how to use this program, showing you how to personalise your account to make ordering even easier.

HOW TO GET A LOGIN

Whether you're a new customer or an existing account customer you will require a unique login, which is arranged by your Revolution Roofing Sales Rep.

If you don't have a known RevBend account please contact your rep and let them know who requires a login (providing their full names and email addresses). They will arrange to set it up for you. Once completed your rep will then issue you your unique login details.

New account customers will find a section on the Trade Account form that will allow you enter information for 3 people and when we set up your trade account your RevBend account will be set up. You should receive your unique login details with your welcome pack. If you haven't received this please contact your rep.

HOW TO GET A LOGIN

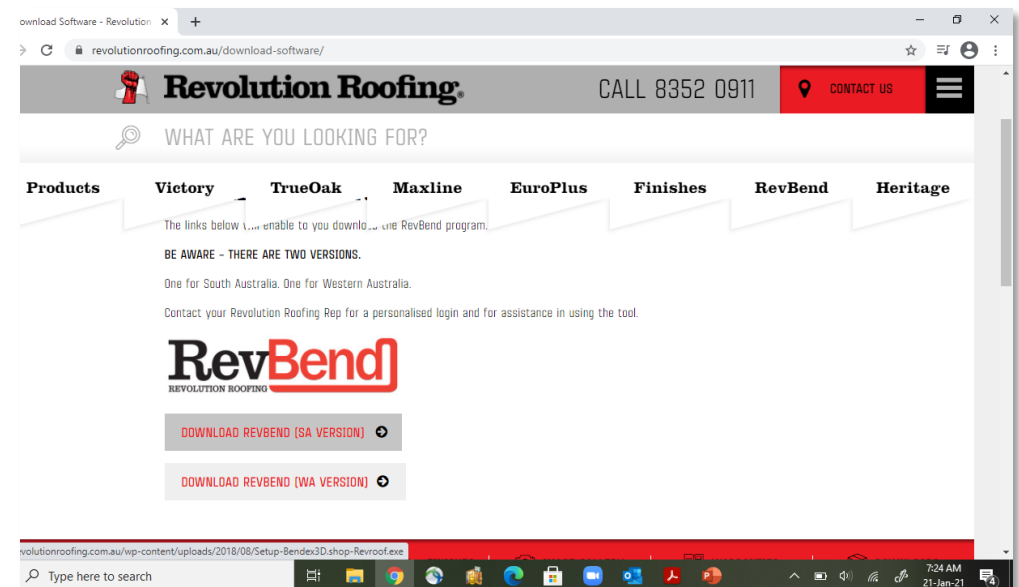

Once you have received your login details you need to download the program to your laptop or desktop computer to get started.

To locate the program please head to our website at:
www.revolutionroofing.com.au

Type RevBend in the search bar and select 'Download Software'

It is vital that SA customers download the SA version only and WA customer download the WA version only.

Click on the desired version and it will start downloading to your device.

DOWNLOADING THE PROGRAM

Once the program is downloaded look for this icon  which is the Bendex program used for RevBend.

You will be asked to Login.

First time users will be asked to create a new password.

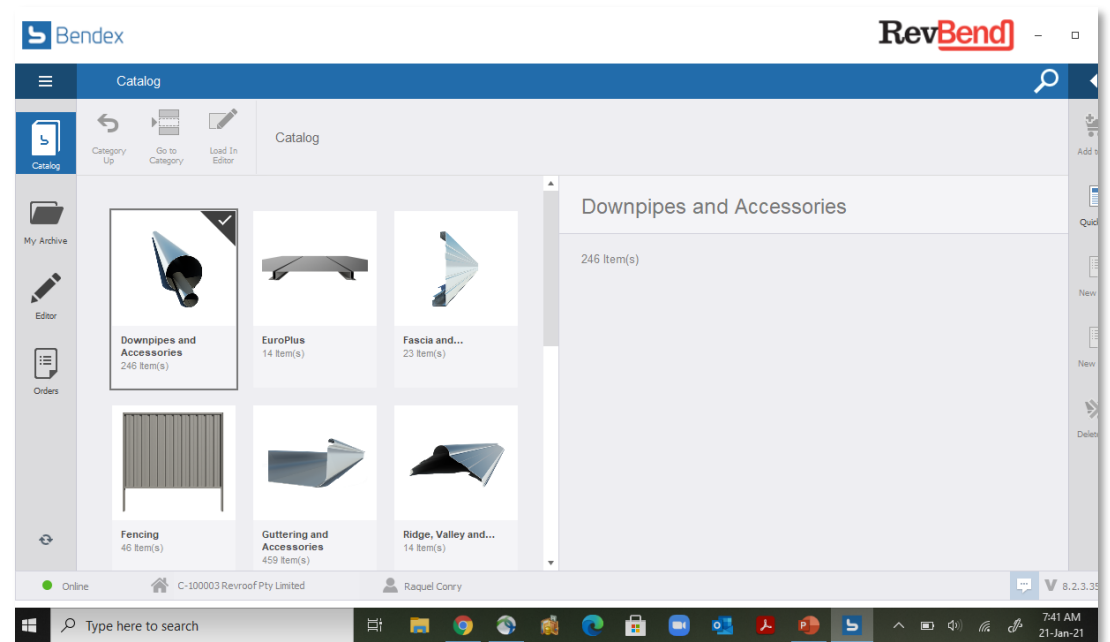

THE BENDEX HOME PAGE

The Bendex home page consists of the following buttons:

- Catalogue
- Archive
- Editor
- Orders

Clicking each button leads you to different products to order. When you log into Bendex next, it will open to the page you were using when you closed the program (eg: if you were drawing a flashing it will open up to that detail). To start a new order just click on one of the above buttons and proceed to add items to your cart.

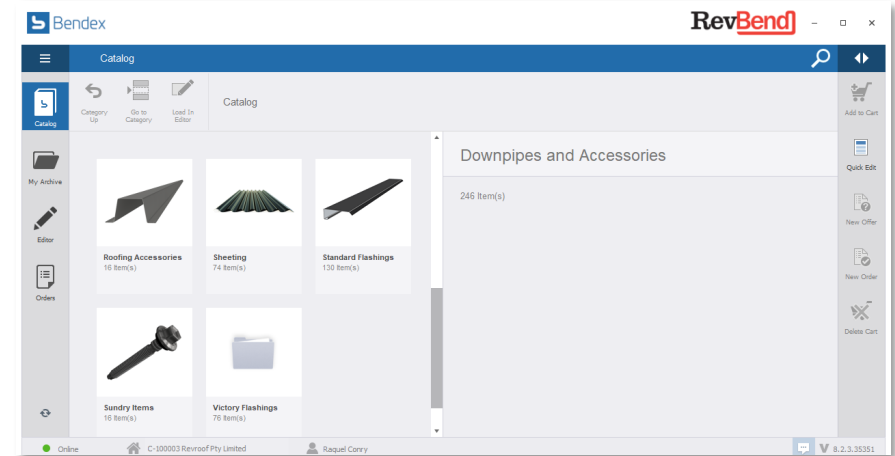

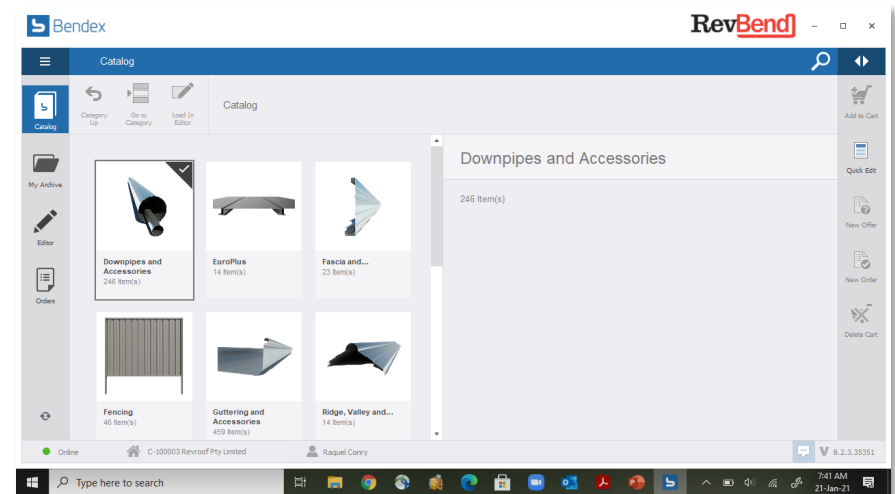

CATALOGUE

Click on the Catalogue button and you will be presented with a header of all the Revolution Roofing products that can be ordered through Bendex.

Click through each header button for a list of products that can be ordered.

You can enter drawings for entire orders, not just flashings.

CATALOGUE

These buttons are:

- Downpipes and accessories
- EuroPlus (will need to be ordered with our helpful sales staff as we require detail sheets to process these orders to production)
- Fascia and accessories
- Fencing
- Gutters and accessories
- Ridge, valley and barge caps
- Roofing accessories
- Sheeting
- Standard Flashings
- Sundry Items (screws, rivets)
- Victory flashings (for Authorised Dealers)

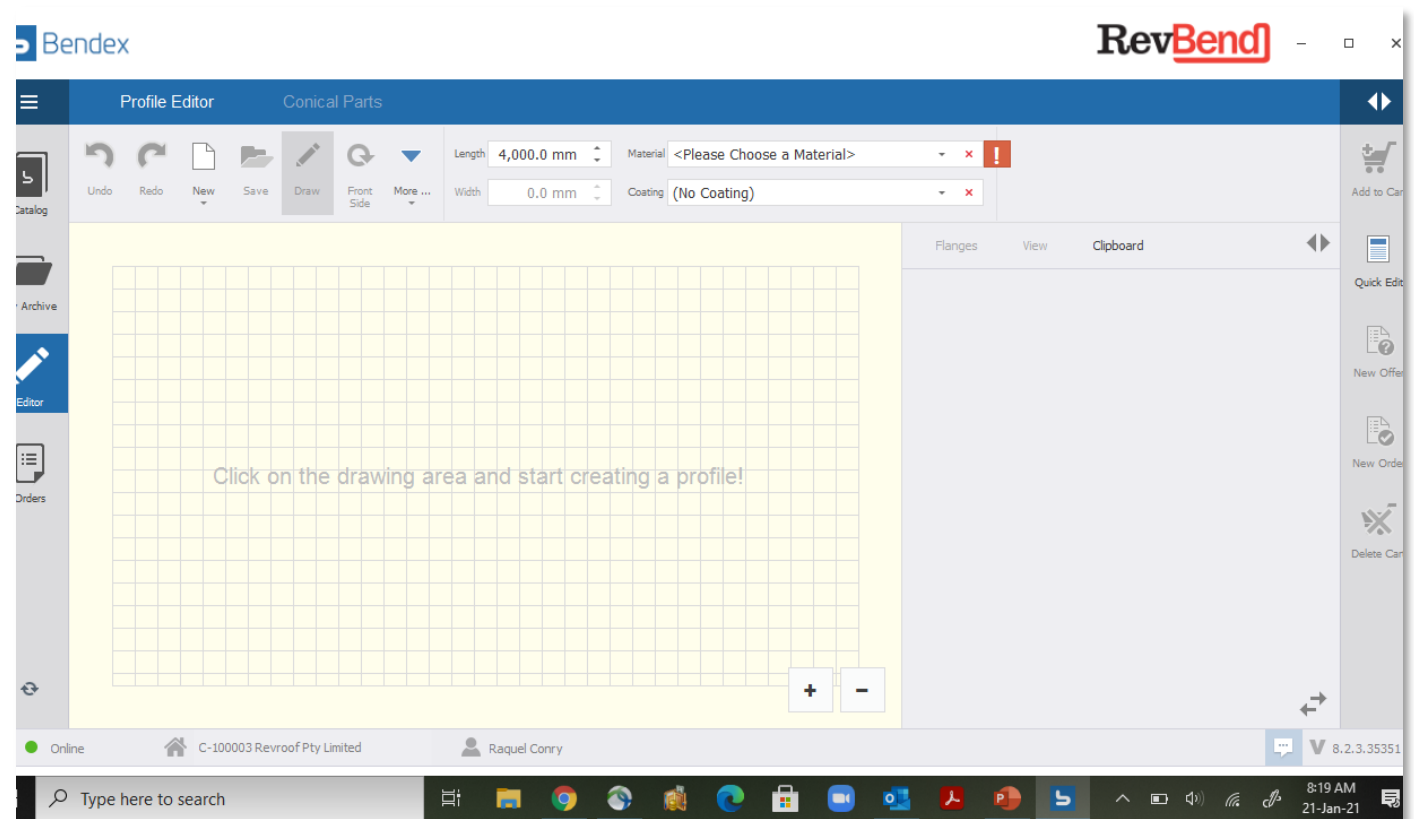

MY ARCHIVE

It's a library where you can create and save your standard flashings specific for your business applications. You can name them as required.

This section makes it quicker for you to just be able to click on the profile and order, as opposed to having to draw the same flashing multiple times.

EDITOR

This is the area where you draw your flashings.

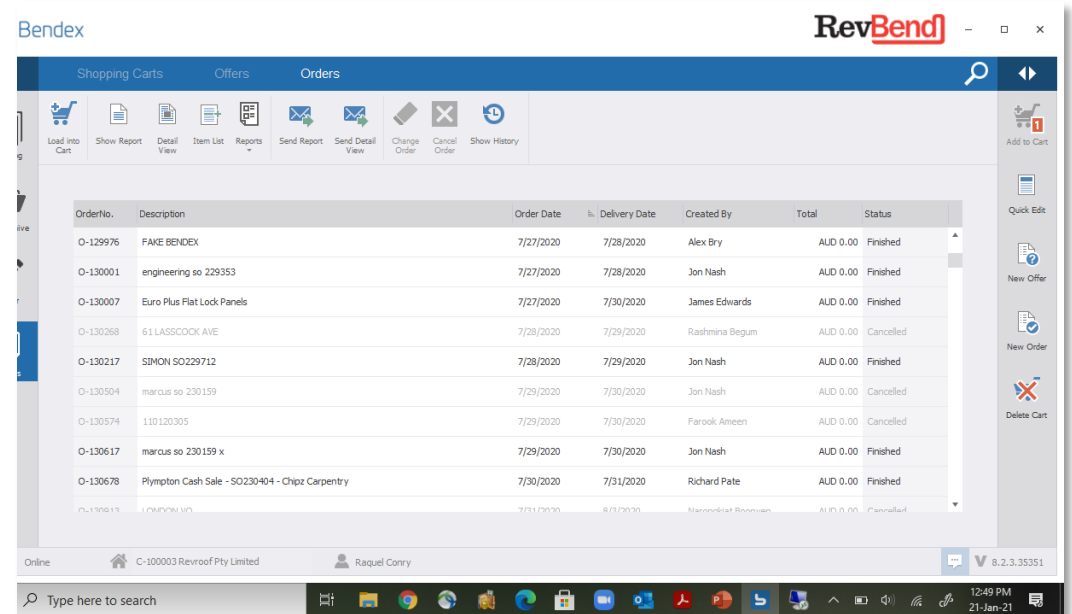

ORDERS

The orders button takes you to a summary of your orders, offers (draft orders) and your current Shopping Cart.

In this section you can:

- Re-order previous orders by selecting it and add to cart (saving you from re-entering it)
- Review your current/previous orders by clicking 'SHOW REPORT' – this acts as an order confirmation itemising your orders.
- Review your flashings by clicking "DETAILED VIEW".

The screenshot shows the RevBend web application interface. The top navigation bar includes 'Shopping Carts', 'Offers', and 'Orders'. The 'Orders' section is active, displaying a table of orders. The table has columns for OrderNo., Description, Order Date, Delivery Date, Created By, Total, and Status. The data is as follows:

OrderNo.	Description	Order Date	Delivery Date	Created By	Total	Status
O-129976	FAKE BENDEX	7/27/2020	7/28/2020	Alex Bry	AUD 0.00	Finished

The bottom of the screenshot shows the Windows taskbar with the time 12:49 PM on 21-Jan-21.

PLACING AN ORDER

SELECTING ITEMS IN CATALOGUE

Bendex has expanded the Catalogue to allow you to enter a complete order using the program.

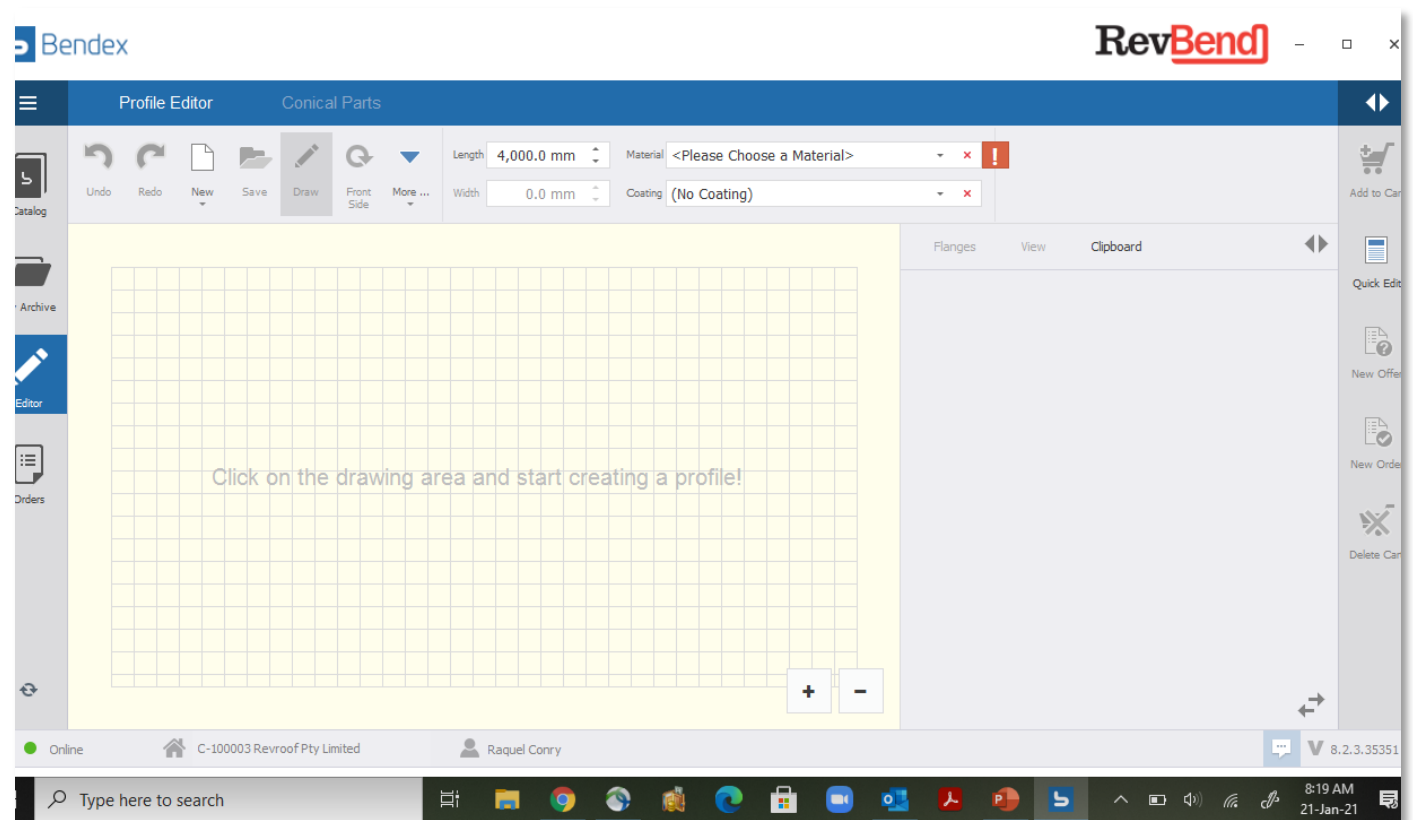

To do this you will find the Revolution Roofing products listed in individual buttons on the Catalogue Page.

Click on the relevant product button to start adding those items to your cart.

You can order anything from 1 rafter bracket to a full roof on Bendex.

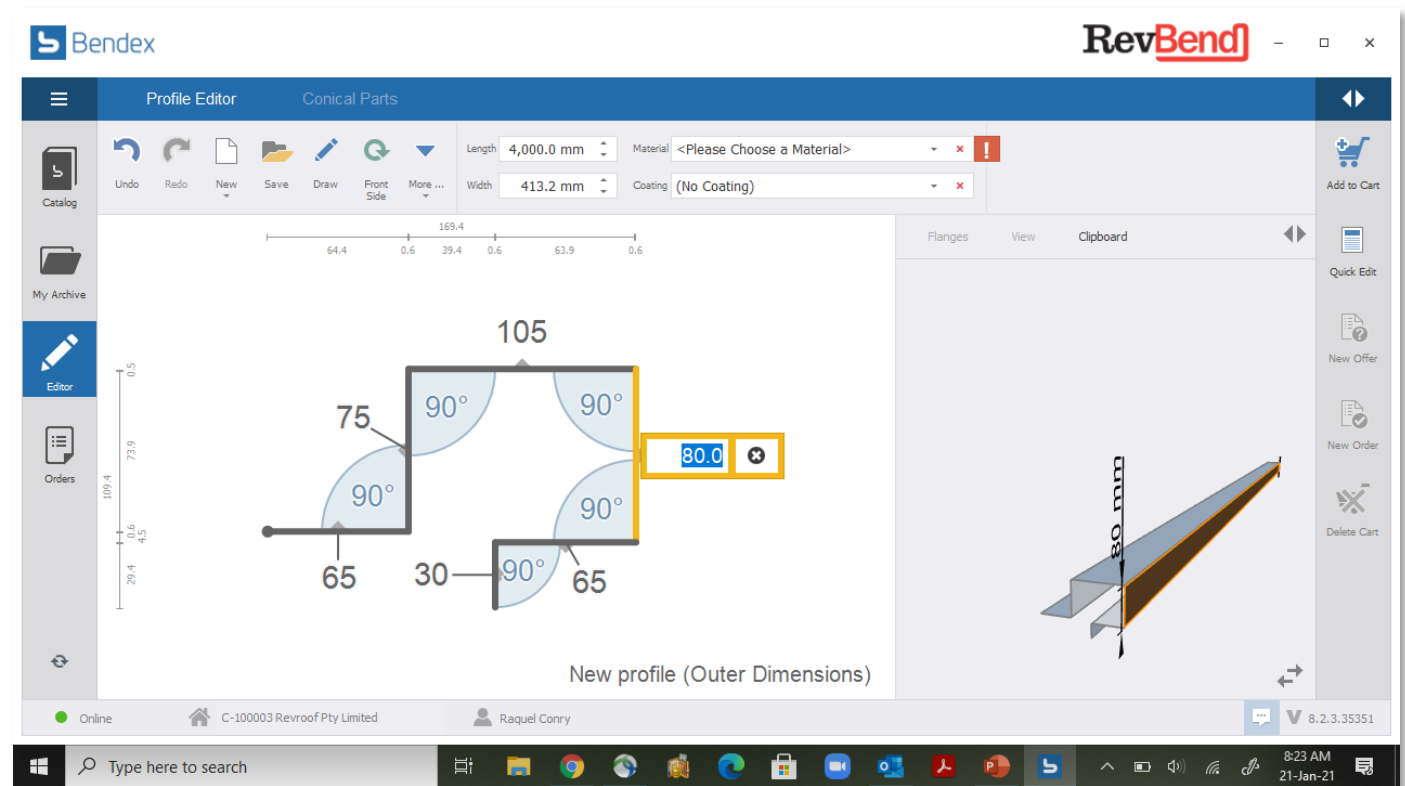

EDITOR: DRAWING FLASHINGS

Click the 'New' button and click New Profile

EDITOR: CHANGING MEASUREMENTS

To amend the measurements, you simply click on the measurement you need to change and type in the desired numbers.

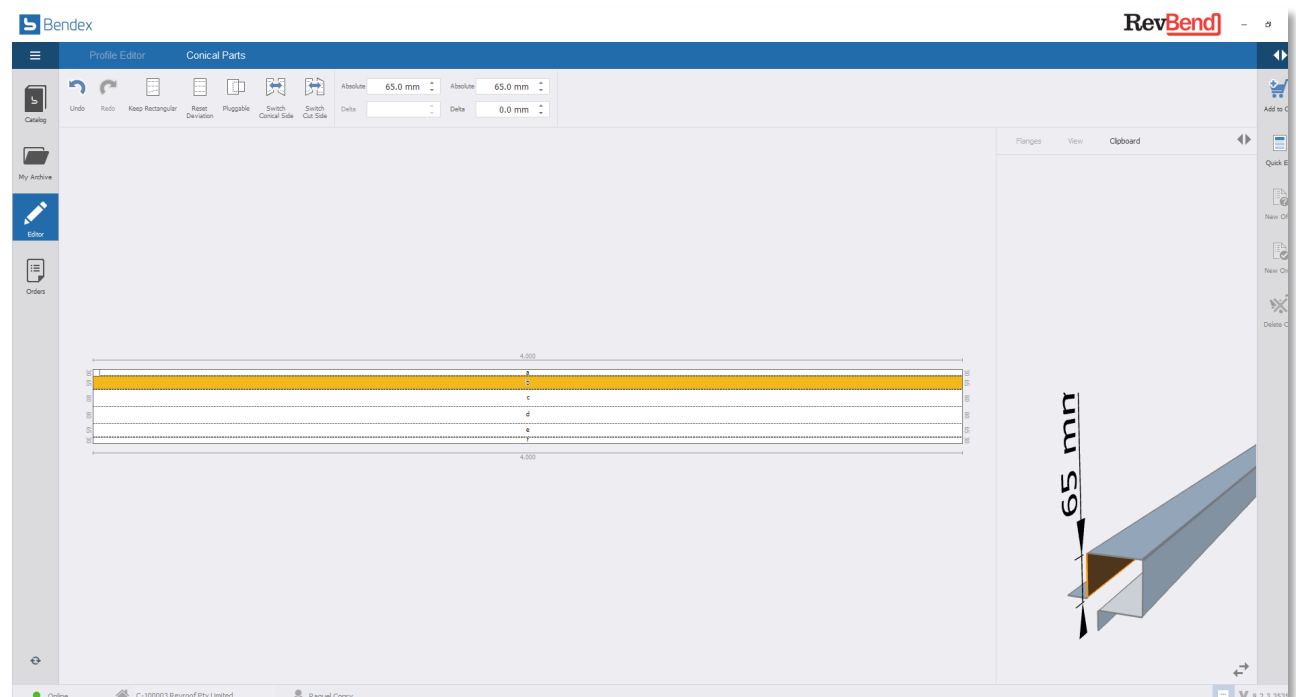

EDITOR: HOW TO TAPER

DID YOU KNOW...You can enter tapered flashings on RevBend as well?

To do this follow the below steps:

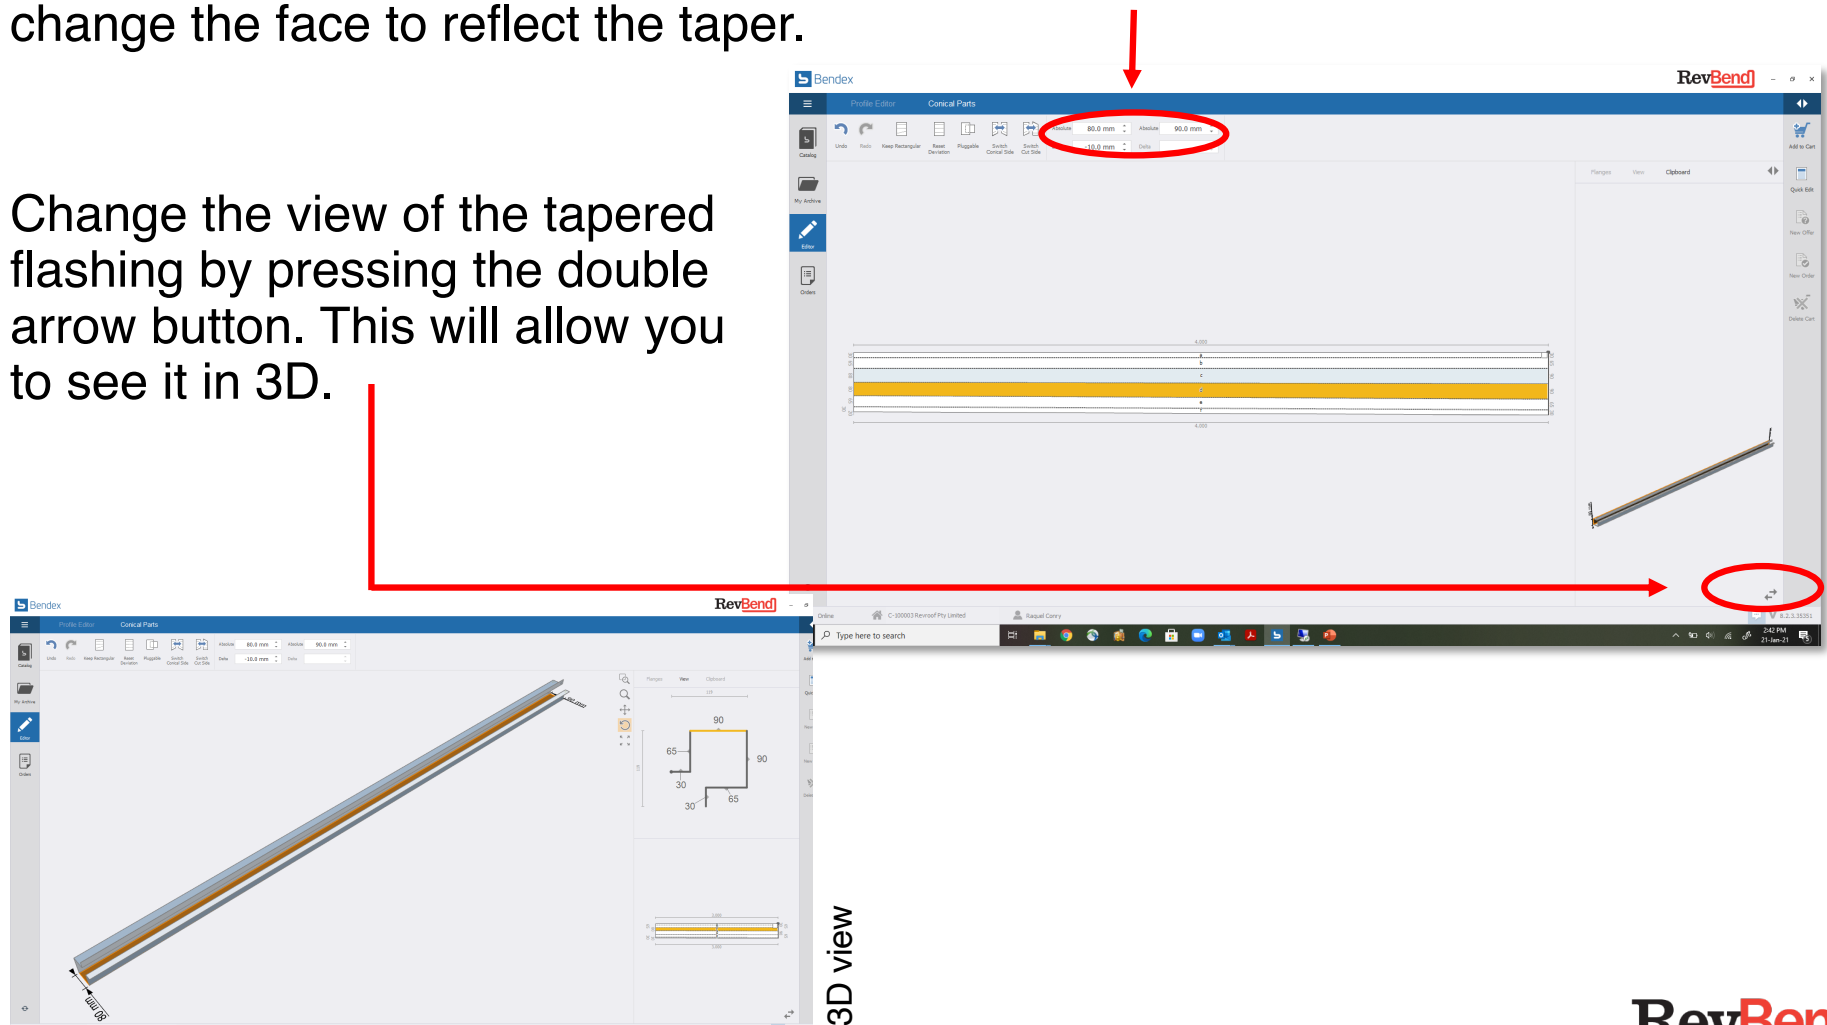

- Draw your start end/near end detail in the grid
- Click on the 'Conical Parts' tab.
- This will take you to the page where you enter the tapered dimensions. The highlight line shows you the face you're tapering.
- Click any of the faces you wish to taper.

EDITOR: HOW TO TAPER

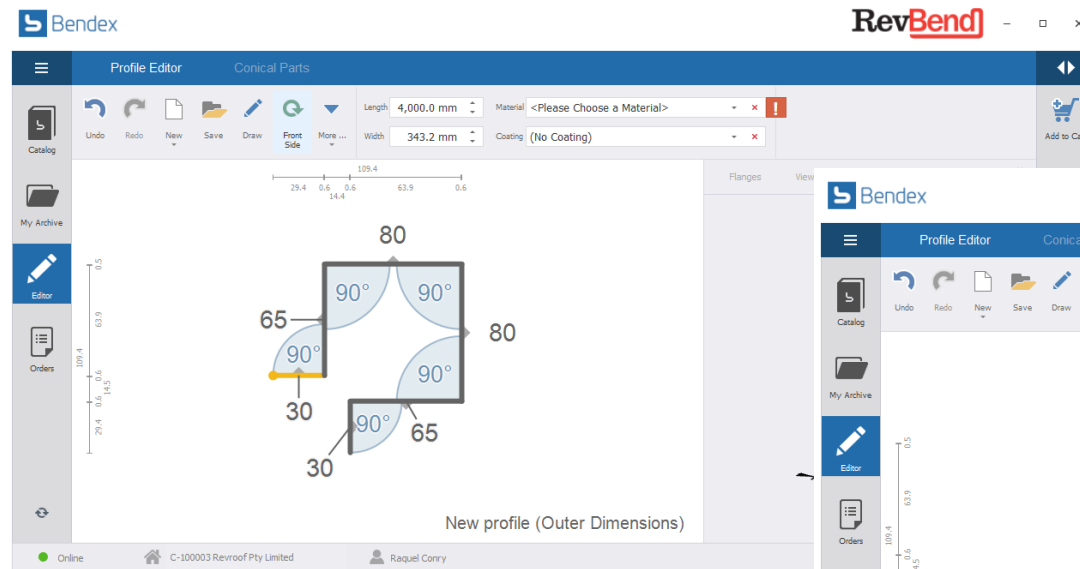

Type the tapering measurement in the 'absolute' field as circled and it will change the face to reflect the taper.

Change the view of the tapered flashing by pressing the double arrow button. This will allow you to see it in 3D.

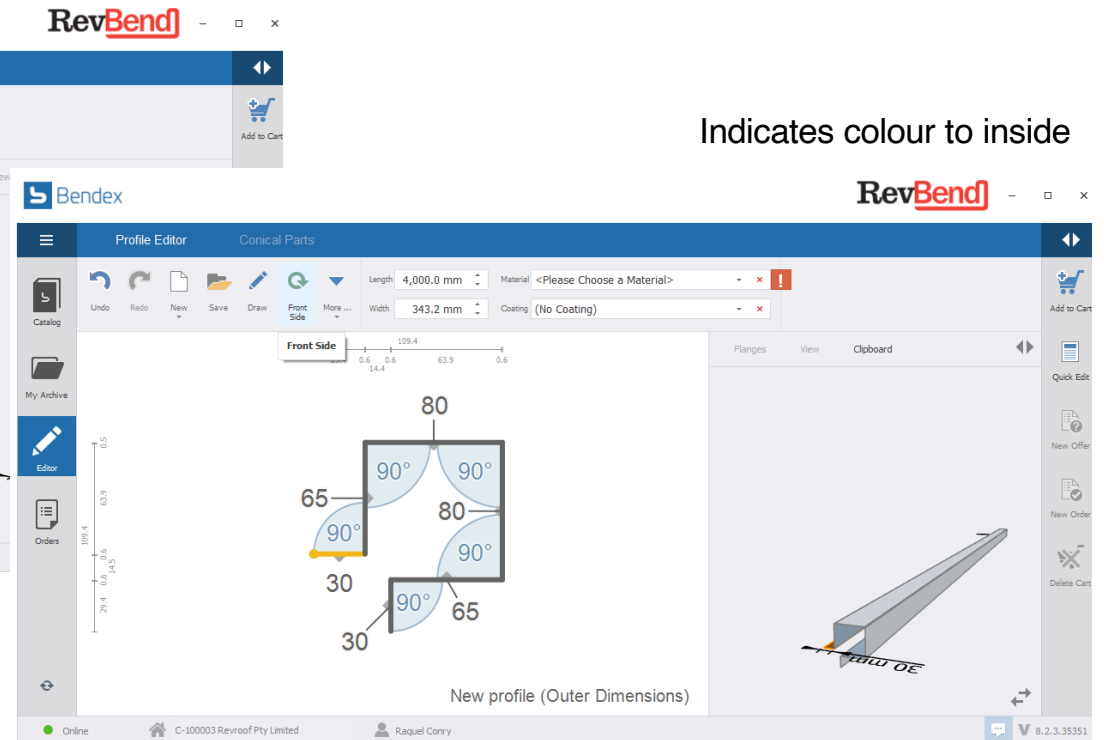

EDITOR: CHANGING COLOUR SIDE

Once the flashing detail is correct please check the colour side (indicated with the arrows on the detail). If you need to change, select the “Front Side” button and it will change the colour side.

Indicates colour to outside

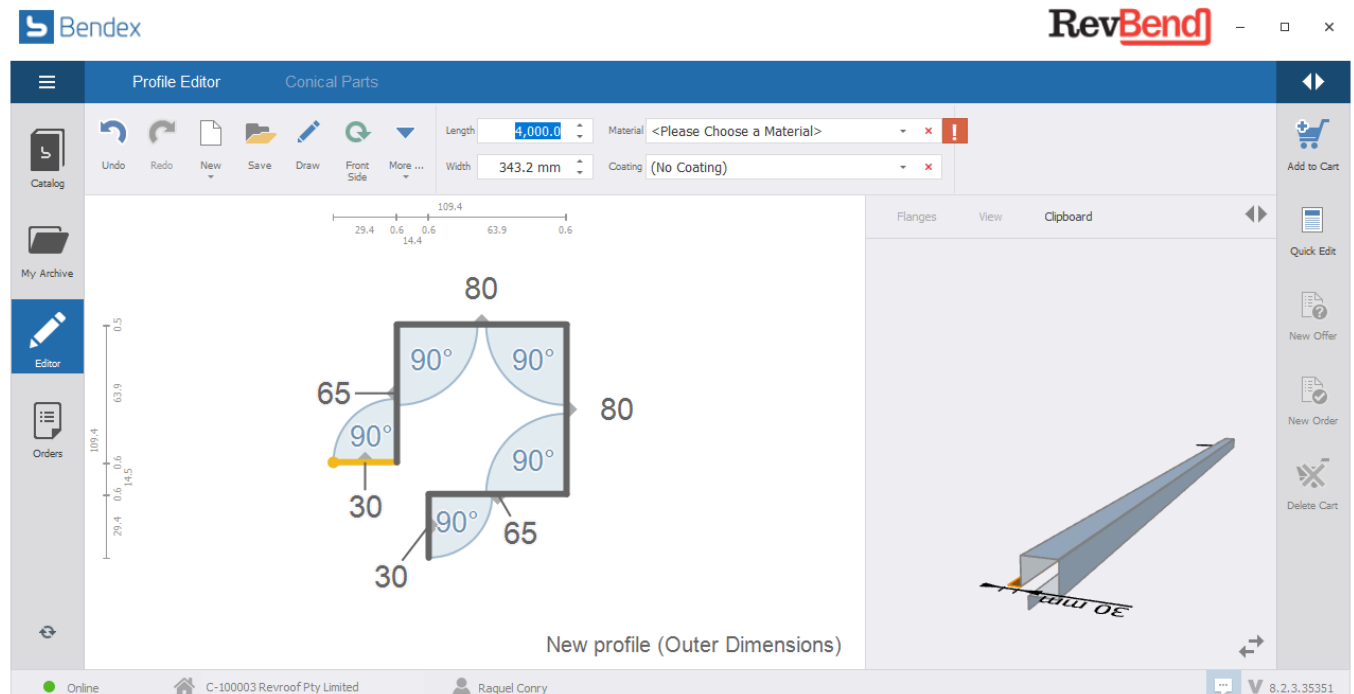

EDITOR: LENGTH

To type the length of the flashing in, simply highlight the “length’ section and type in required lengths.

Please note the length is in mm not lm.

Example: 4000mm = 4.0lm

EDITOR: SELECTING MATERIAL

To select the material you need for your flashings click on the Material box and all the colours and finishes will drop down.

The screenshot displays the RevBend software interface, which is used for designing and selecting materials for flashings. The interface is divided into several sections:

- Top Bar:** Features the Bendex logo on the left and the RevBend logo on the right.
- Profile Editor:** The main workspace for editing the profile. It includes a toolbar with icons for Undo, Redo, New, Save, Draw, Front Side, and More. The profile dimensions are shown as Length: 4,000.0 mm and Width: 343.2 mm. The profile itself is a complex shape with dimensions: 109.4 (top), 63.9 (left), 29.4 (bottom left), 0.6 (bottom), 14.4 (bottom right), 63.9 (right), and 0.6 (top right). The profile is divided into four quadrants, each with a 90° angle. The top and bottom edges are labeled 80, and the left and right edges are labeled 65.
- Material Selection:** A dropdown menu is open, showing a list of materials. The dropdown is titled "Material Selection" and includes fields for Material Grade (set to "<All>") and Thickness (set to "<All>"). The list of materials includes: ARIES .55 Metallic, ASTRO .55 Metallic, BIRCH GREY (DUNE*) 0.55 1200, BIRCH GREY MATTE .55 (DUNE*), CATTAI GREEN .55, CAULFIELD GREEN (COTTAGE GREEN*) 0.55 1200, CAULFIELD GREEN (COTTAGE GREEN*) 0.80 1200, CELESTIAN .55 Metallic, COCKY MOLESKINS 1.00 370 (BEAM FEED), COPPER - 0.55mm, and COPPER - 0.70mm.
- Right Sidebar:** Contains icons for Add to Cart, Quick Edit, New Offer, New Order, and Delete Cart.
- Bottom Bar:** Shows the user's status as "Online", the company name "C-100003 Revroof Pty Limited", and the user's name "Raquel Conry".

EDITOR: SELECTING COLOUR

If you know the Nexteel™ NextONE™ or NextSTAR™ colour name, you can type the colour in the search bar. The colour matches will list below.

eg: if your flashing is Off White then you can type in Off White and select the required thickness for your flashing.

The screenshot displays the RevBend software interface. The main window is titled 'Profile Editor' and shows a technical drawing of a roof profile with dimensions: Length 4,000.0 mm, Width 343.2 mm, and various angles (90°, 65°, 30°). The 'Material Selection' panel on the right lists search results for 'off white'. The results include:

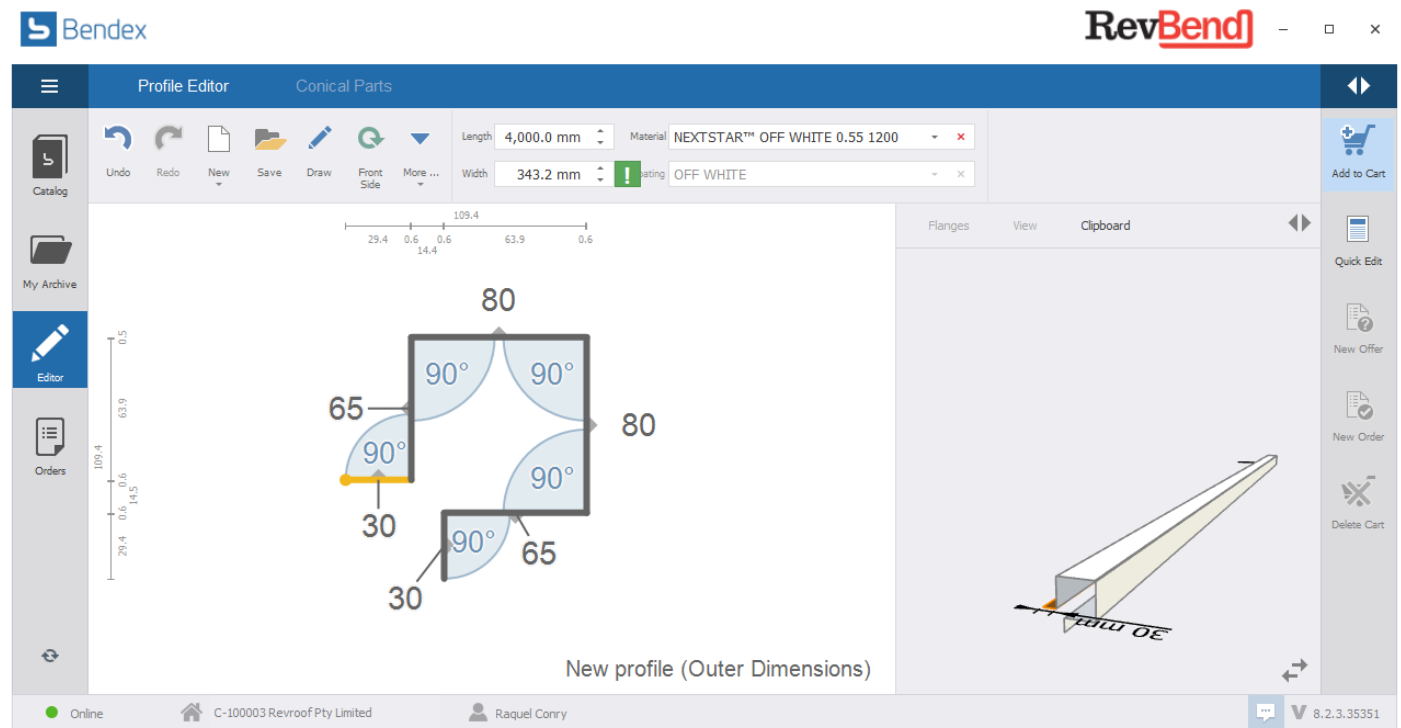

- NextREME SE Off White .80
- NEXTSTAR™ Off White 0.55 1200
- Off White (SURFMIST*) 0.80 1200
- Off White (SURFMIST*) 1.00 370
- Off White MATTE .55 (SURFMIST*)
- ULTRA NextSTAR™ Off White .55 (SURFMIST*)
- ULTRA NextSTAR™ Off White .80 (SURFMIST*)

The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

EDITOR: HOW TO ADD TO CART

Once you've double checked details and confirm the flashing is correct the next step is 'Add to cart.'

To do this you click the "add to cart" button on the top right hand side of the screen.

EDITOR: HOW TO ADD TO CART

The item will be added to your cart showing the below summary. Here is where you can change the quantity of the item required.

The highlighted number shows the quantity. If you require more than 1 of, simply type over with the required quantity and hit the TAB button. This will save the change and allow you to continue with your order.

Should you require multiple lengths of the same flashings, after adding that length to the cart, head back to the editor, type the new length over the existing and add to cart.

The screenshot displays the RevBend software interface, which is split into two main sections: the Profile Editor on the left and the Shopping Cart on the right.

Profile Editor (Left Panel):

- Header:** Includes the Bendex logo and tabs for "Profile Editor" and "Conical Parts".
- Toolbar:** Features icons for Catalog, My Archive, Editor, and Orders, along with standard editing tools like Undo, Redo, New, Save, Draw, Front Side, and More...
- Parameters:** Shows "Length" as 4,000.0 mm and "Material" as NEXTSTAR™ OFF WHITE. The "Width" is set to 343.2 mm with a dropdown menu.
- Diagram:** A technical drawing of a roof profile with dimensions. The main profile has a width of 80 and a height of 65. It features four 90° bends. A smaller profile is shown below it with dimensions 30, 65, and 30. A vertical dimension of 109.4 is also indicated.
- Flanges View:** A tab labeled "Flanges" is visible on the right side of the editor.
- Status Bar:** At the bottom, it shows "Online", "C-100003 Revroof Pty Limited", and the user "Raquel Conry".

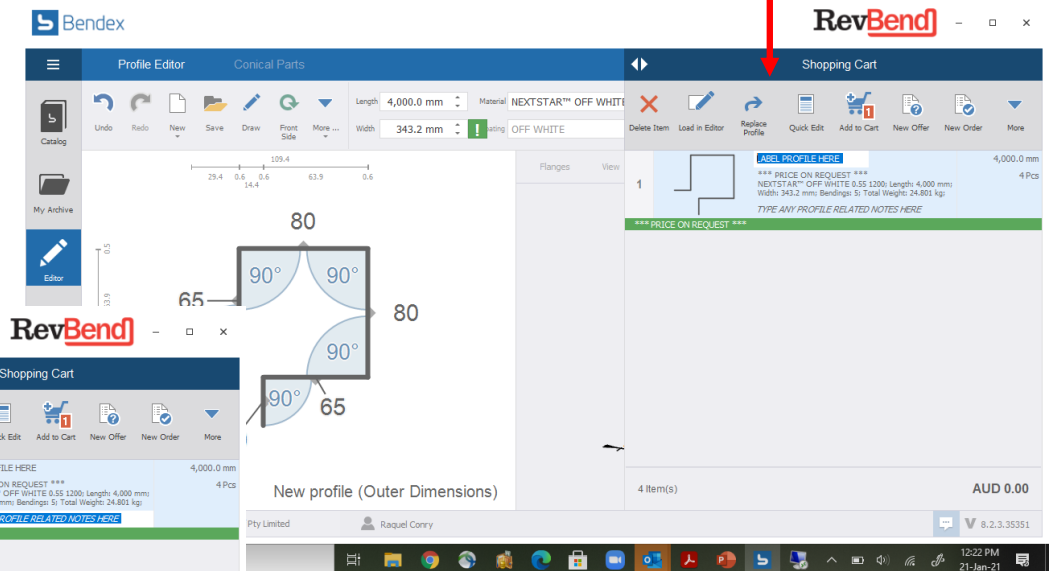

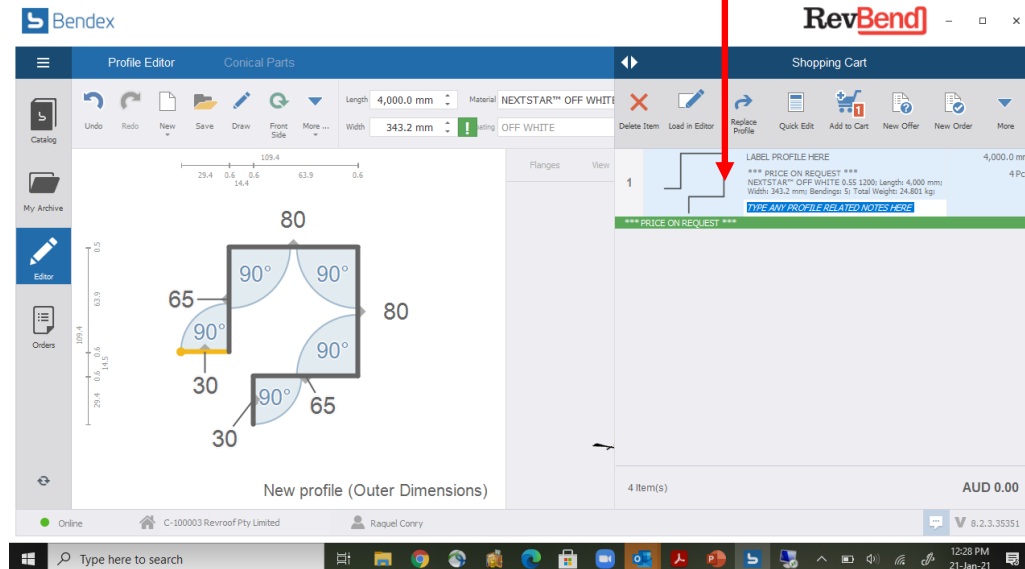

Shopping Cart (Right Panel):

- Header:** Includes the RevBend logo and a "Shopping Cart" tab.
- Toolbar:** Features icons for Delete Item, Load in Editor, Replace Profile, Quick Edit, Add to Cart, New Offer, and New Order.
- Item List:** Shows a single item with a quantity of 1. The item is labeled "New profile" with a length of 4,000.0 mm. The price is listed as "*** PRICE ON REQUEST ***".
- Summary:** At the bottom, it shows "1 Item(s)" and a total price of "AUD 0.00".

EDITOR: ADD NOTES TO PROFILES

If your profile requires some labelling or specific profile notes this is the section to add that. The highlighted Box shows you where you can type the profile name if required ie. Toe Mould for A1.

You can also list notes on individual details by entering them in the highlighted section ie. measurements are critical

To add additional flashings please follow the previous steps and add to your cart.

CREATE AN ORDER

Now you have completed your cart, you are ready to convert it to an order.

To do this click on 'New Order'.

The screenshot displays the RevBend software interface, which is used for creating and managing orders. The interface is divided into several sections:

- Top Bar:** Features the Bendex logo on the left and the RevBend logo on the right.
- Left Sidebar:** Contains navigation icons for Catalog, My Archive, Editor (highlighted), and Orders.
- Profile Editor:** The main workspace for creating and editing profiles. It includes a grid for drawing and a toolbar with options like Undo, Redo, New, Save, Draw, Front Side, and More... The current profile settings are: Length 4,000.0 mm, Width 0.0 mm, Material NEXTSTAR™ OFF WHITE 0.55 1200, and Coating OFF WHITE.
- Shopping Cart:** Located on the right, it lists items added to the cart. The cart contains 66 items with a total value of AUD 0.00. The items are organized into a table with columns for item number, image, dimensions, quantity, and price.

Item	Image	Dimensions	Quantity	Price
2		4,000.0 mm	40 Pcs	AUD 0.00 / Pc
2.1		AUD 0.00 / m 3,500.0 mm	12 Pcs	AUD 0.00 / Pc
3		3,500.0 mm	5 Pcs	AUD 0.00 / Pc
3.1		AUD 0.00 / m 3,050.0 mm	3 Pcs	AUD 0.00 / Pc
4		1,200.0 mm	2 Pcs	AUD 0.00 / Pc

At the bottom of the interface, there is a status bar showing 'Online', 'C-100003 Revroof Pty Limited', 'Raquel Conry', and the version number '8.2.3.35351'.

CREATE AN ORDER

Fill out the below fields with the relevant information.

- Subject = Order Number
- Facility will be auto-filled for you based on your state.
- Delivery method. Click on the field and select from the drop down options. Delivery to site will require the address to be entered including the postcode.
- Selected your requested delivery date
- Any delivery or production notes please list under the relevant comments section as seen below

Once complete click 'OK' and it will convert to an order.

The image displays three sequential screenshots of a software interface titled 'Create Order'. The interface is divided into several sections:

- Shopping Cart:** Located on the left, it lists items with their quantities and prices. For example, Item 1 is priced at 40.00, Item 2 at 12.00, Item 3 at 5.00, and Item 4 at 3.00. The total is shown as AUD 0.00.
- Order Details:** The main area on the right, which includes:
 - Subject:** A field for the order number, currently set to 'Regency Park SA'.
 - Facility:** A dropdown menu, also set to 'Regency Park SA'.
 - Delivery Date:** A date picker set to '1/22/2021 12:00 PM'.
 - Delivery Method:** A dropdown menu with options like 'Collect - Lonsdale', 'Collect - Plympton', 'Collect - Regency Park HQ', 'Delivery - AM', 'Delivery - Anytime', 'Delivery - Time Specified Drop', and 'Delivery - TO STORE'. The 'Delivery - Time Specified Drop' option is highlighted in the second screenshot.
 - Comments:** A text area for additional notes. In the third screenshot, it contains the text: 'test bench - DO NOT SCHEDULE OR MAKE', 'PLEASE CALL LHR BEFORE DELIVERY', 'JOL: 0412 343 678', and '***PRODUCTION*** PLEASE MARK AND LABEL FLASHINGS AS PER BENCHMARK FLASHING MEASUREMENTS ARE CRITICAL'.
- Buttons:** 'OK' and 'Cancel' buttons are located at the bottom right of the 'Order Details' section.

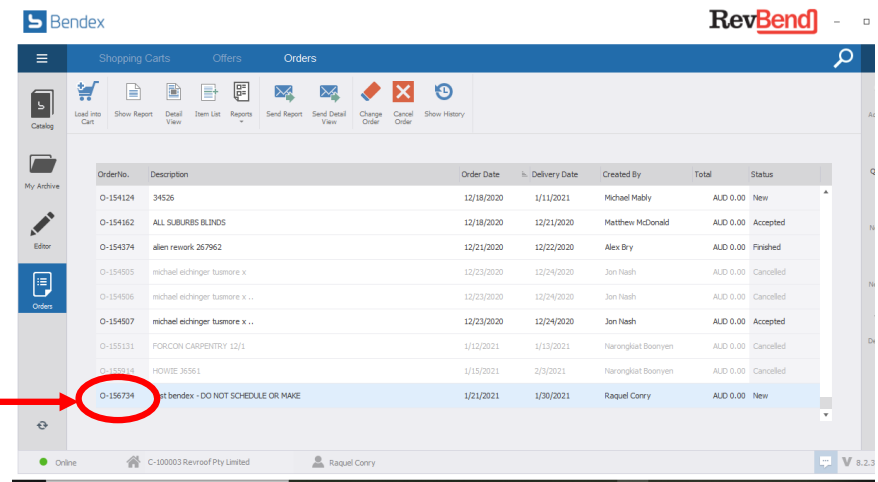

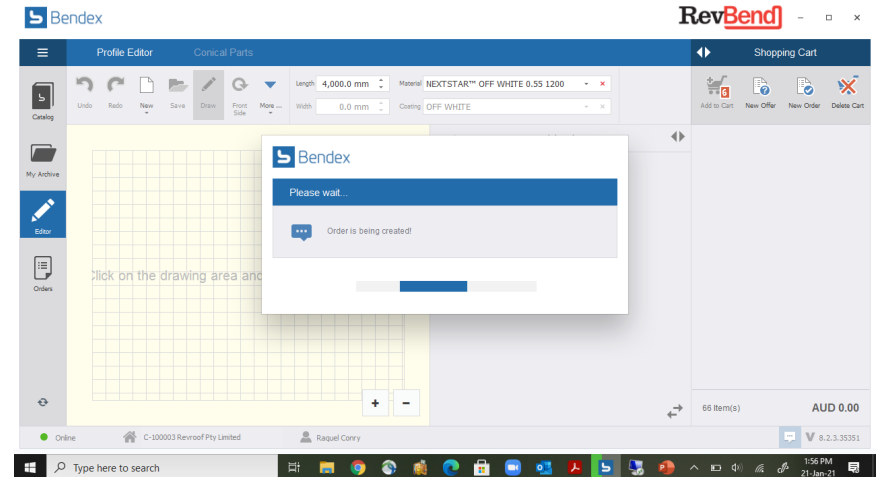

The interface is shown on a Windows desktop with a taskbar at the bottom.

CREATE AN ORDER

After clicking OK, your cart will be converted to an order. You'll see this screen, showing it's uploading.

Your order will be assigned a RevBend order number. A notification is then sent to the Customer Service Team to review, approve and release.

If you need to make any changes please contact the sales team or your rep. Provide the Bendex reference number so we can find your order.

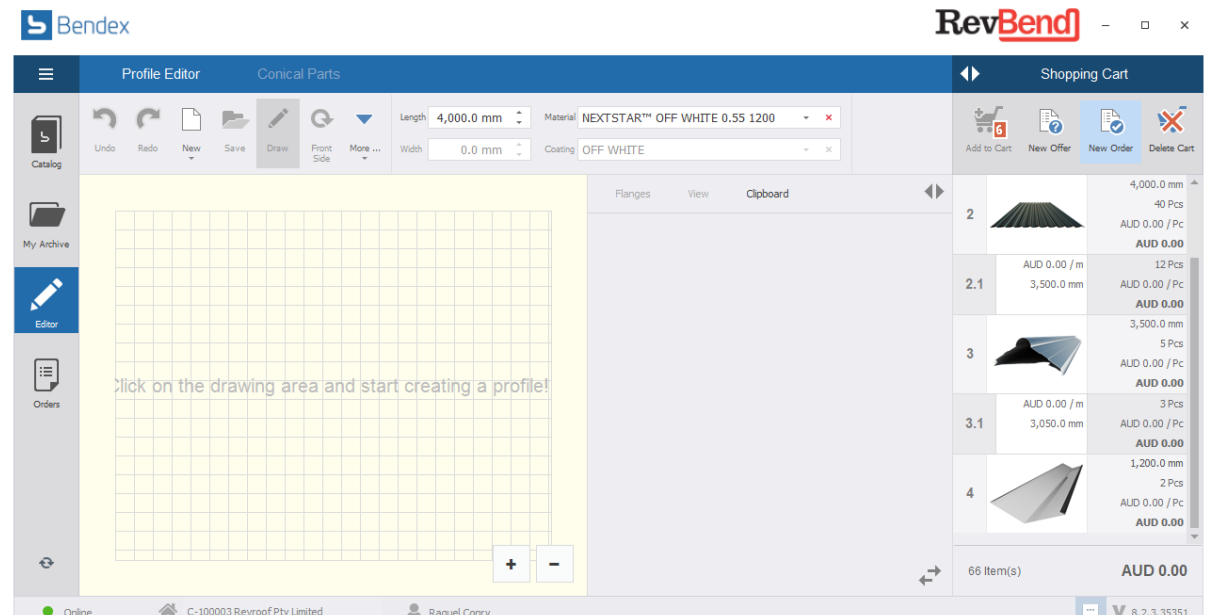

CREATE AN OFFER

If you have started your order and have realised you need to double check some details before creating an order but don't want to lose what you have entered in the cart.... not a problem!

You can create an OFFER and return back to the order when you are ready.

To do this follow the previous steps on how to create an order and instead of clicking 'New Order' you click 'New Offer.' this will guide you through all the same information regarding address, order numbers, dates and order comments however it won't convert it to an order.

A handy little tool to save you time and effort.

ORDER CONFIRMATIONS

At this point you are able to print reports of any orders you have generated.

Select from the following options:

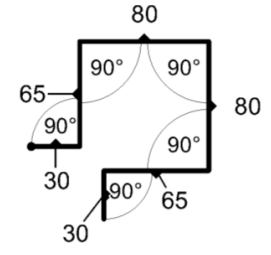

- **‘Show Report’** to get your itemised sales order confirmation.
- **‘Detailed View’** to get the order confirmation complete with flashing details.

Detailed View

REVBEND ORDER TIPS

RevBend order confirmations don't provide any pricing.

Project orders that require long loads must be ordered through your Sales Rep or Customer Service department.

Length restrictions apply on all products. If you have an order that is over RevBend length allowances please place the order with your Sales Rep or Customer Service department.

If you have made an error on an order after submitting it – no worries – contact your Sales Rep or Customer Service department and they will be able to help you.*

All EuroPlus orders require a detail sheet to be completed and submitted to Revolution Roofing. If you enter it on RevBend, you will also be contacted to complete the detail sheet.

*If the order has already been started in production, we will be unable to amend the order.

REVBEND ORDER TIPS

Maximum length on all flashings is 8000mm long. Some flashings we may need to adjust to be able to manufacture accurately – if this is the case, you will receive a phone call from your Sales Rep or a Customer Service Officer.

When entering a site address this will automatically trigger a delivery charge when the order is released by Revolution Roofing. This delivery charge won't appear on your RevBend sales confirmation.

All RevBend orders will be released in accordance with our tolerances, schedules and delivery zones. If any order is outside schedule or delivery zone you will be contacted to discuss a change of date.

Please note: requested delivery dates are subject to approval by Revolution Roofing. Out of schedule orders will be changed to reflect the schedule outlined in your price list. If you need a copy please contact Revolution Roofing.
