Cover	Quantity	Length (mm)

- Maximum Length: 8m*
- Minimum Length: 0.6m
- Coil must be forward ordered: Lead times apply.
- Production lead time: 3-5 working days.

Oil Canning is an inherent characteristic of non-ferrous metals with broad flat areas. The Architect, Builder, and Homeowner needs to be aware that oil canning may affect the our varining is an inherent characteristic of informations in the activities are massives that can be taken during design and installation to minimise the risk of oil canning such as ensuring the plywood is flush, the panels are fixed vertically, limiting the continuous length of each panel, and reducing the size of the pan.
